

A

Molecular-record boundary

C

Replica-aware organization

Manifest joins sizes, atom counts, frame counts and component scope.

B

What each record can support

	protein complex	ligand contact	lipid / solvent / ions	recompute from source
Reduced trajectory	Y	Y	—	—
Gateway summary	S	S	—	Y
Full-system source	Y	Y	Y	Y
	Y supported	S summary only	— not supported	

D

Access and reuse layers
